

# #SHOWTHELOVE2021

The Climate Coalition's Campaign 1<sup>st</sup> - 21<sup>st</sup> February

## SHOW US "How Green is Your House?"

It will soon be February, the month when we wear our **Green Hearts** to show our love for our planet. This year we will probably not be going out anywhere but we could decorate our windows and gardens to remind people of what is happening to our climate

Here is a very simple way to make a **Green Heart**

- ♥ Take a wire coat hanger and twist it into a heart shape
- ♥ Find some scraps of material and yarn
- ♥ Wind around the wire and secure with glue or stitches
- ♥ Make some green hearts from the scraps of material or knit or crochet – you can make a template from a piece of cards. Or you could make paper hearts
- ♥ Attach to the frame

*YOUR results will, I am sure, be much grander than mine  
**Send a photo for us to see how green our homes are!***

**Look out for Carol's Green Heart Shortbread  
in February's Lockdown Baking!**

**You probably have numerous other ideas – share  
them with us!**

Still stuck...? NEED some IDEAS?

The Climate Coalition's resource pack is available from  
the NFWI website:
