

Dippy is on his way to Norwich Cathedral!

13th July – 30th October

Norfolk WI has been invited to highlight Climate Change
in the accompanying exhibitions
In view of our link to the Climate Coalition, we are putting on
a display of Green Hearts!

We will need lots of **Small Green Hearts** to give out to visitors
but would also like **Larger Green Hearts** to decorate our display
Maybe your WI would like to make a large Green Heart?
They can be knitted, crocheted, sewn, made from card –
the choice is yours!

Volunteers will be needed

- to supervise our display
 - talk about the WI's links to environmental issues
 - and give out **Green Hearts** to Dippy's visitors
- 
- 

So, if you could find time on either

- **Thursdays or Saturdays from 10.00am to 4.00pm in July & August**
- **Saturdays only in September & October** during the time Dippy is with us...

Please contact Helen either by post, phone or email (admin@norfolk.wi.org.uk)

Parking will be available at the Cathedral for volunteers but other expenses cannot be claimed

We plan to set up our display on the 28th June and would appreciate
delivery of the **Green Hearts** to Evelyn Suffield House before that date
but please contact the Office as you will need to make an appointment!

Elaine Weymouth, Federation Climate Ambassador
